

A CONCEPT FOR COMFORT & ENERGY

High velocity air movement
Where it's needed-
Instantly.

MAXXair MCP 30 provide the right high velocity air movement that cools, ventilates and dries. The MCP 30 adapts to many commercial, industrial and residential spaces.

The fan head tilts air direction 90 degrees.

The fan pole telescopes to 7 feet. The three-speed, high performance motor enables the user to put the right airflow where it is needed from floor to ceiling. With all three of these features, the user can achieve maximum utilization of the MAXXair Pedestal Fan.

Other features of MCP 30 are a large stable base, ergonomically designed height adjustment knob, and spring loaded stand to assure ease of height adjustment and optimum operating performance.

PROVEN PERFORMANCE FROM A VENTILATION INNOVATOR

MAXXair a pioneer in the ventilation industry for over 50 years offers a complete line of proven ventilation solutions. Our reputation for quality, value and customer service is second to none.

Responding to the ever-changing needs of homeowners and businesses alike keeps us in the forefront of the industry. Ventilation and related air movement products are our core business and the very foundation upon which we have built our reputation as industry innovators.

MAXXair offers a complete line of quality portable air circulators for commercial and residential needs, big and small.

With your purchase of a MAXXair you can be sure you will enjoy dependable lasting performance
